

# Discover Your Engineering Fit

20 min AI based psychometric test

FOR  
**₹1000** Only + GST  
Before Spending in Lakhs for Engineering

## Why this Assessment?

Often, students find themselves in engineering colleges for reasons like societal pressure, parental influence, or insufficient guidance. Making the wrong choice at this crucial juncture can have long-lasting effects. Understanding our alignment can empower us to make informed decisions about pursuing engineering and gain valuable insights to navigate this path effectively.

The test aids aspiring engineers in uncovering their alignment and evaluating their proficiency across seven core strengths essential for excelling in engineering.

## Who will Benefit?

- Parents who are guiding their children on engineering choice
- Students in 11th and 12th standard.
- Students aspiring for engineering study.
- Academic counsellors to offer tailored guidance to students.

## What you Get?

- Your fitment to engineering across five bands ranging from top match to no match.
- Your proficiency in the seven assessment factors.
- Personalized analysis and recommendations that can help you.

**98%** participants say it help in their decision making.

**100%** participants appreciated the details, rationale and fitment

## About the test

**This 20-minute online psychometric test is crafted to pinpoint your natural talents, strengths, and preferences, aligning them with seven crucial factors (analytical capabilities, critical thinking, innovation, mathematical ability, problem solving, reasoning) vital for engineering excellence.**

Disclaimer: Like every other tests, psychometric tests carry margin of error. We ask you to consider the outcome as one of the inputs to your decision-making process. Relying solely on one method carries limitations. Therefore, combining its results with other similar guidance, tests, and assessments can offer a more comprehensive view to inform your decision-making process effectively.
